

# Physician Performance Insights Reports Coming Soon from PEAQ<sup>SM</sup>

June 26, 2024

In August, physicians eligible for our [Physician Efficiency, Appropriateness, and Quality<sup>SM</sup> program](#) can view their Physician Performance Insights in [Availity<sup>®</sup> Essentials](#). PPI reports show how physicians compare to their peers and include information on improving performance.

We make PPI reports available to physicians if they provided care to a minimum number of our members in the report timeframe and practice in the following specialties:

Medical	Surgical	Primary Care
Cardiology Endocrinology Gastroenterology Nephrology Neurology Obstetrics and Gynecology Pulmonary Rheumatology	Cardiothoracic Surgery General Surgery Ophthalmology Orthopedic Surgery Otolaryngology Urology Vascular Surgery	Family Medicine Internal Medicine Pediatrics

The PPI reports being released in August are based on [this methodology](#). You can view and download last year’s PPI report in Availity until the new report is released in August. If you don’t yet have an Availity account, [register here](#).

**Sample Ratings**

**Quality of Patient Care**  
 High performance among peers

**Cost Efficiency**  
 Average performance among peers

**Medical Appropriateness**  
 Average performance among peers

## PEAQ Results Help Our Members

[Provider Finder<sup>®</sup>](#) includes performance ratings from the PPI reports released in 2023 for cost efficiency, medical appropriateness and quality of patient care. Provider Finder profiles for physicians who were highly rated in these areas display a **“Top Performing Physician” designation**.

The ratings and designation help our members **make informed care decisions**. Members who get care from top performers may be eligible for Member Rewards.

Results from 2024 PPI reports will appear on Provider Finder in 2025.
