

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective April 1, 2021 – Part 2

This article is a continuation of the previously published [Quarterly Pharmacy Changes Part 1 article](#). While that part 1 article included the drug list revisions/exclusions, dispensing limits, utilization management changes and general information on pharmacy benefit program updates, this part 2 version contains the more recent coverage additions, utilization management updates and any other updates to the pharmacy program.

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the Blue Cross and Blue Shield of Oklahoma (BCBSOK) drug lists.

Please note: Revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were included in the [Quarterly Pharmacy Changes Part 1 article](#). Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.
